Measure, Appointment or Topic: SB1578

There is testimony that SB 1578 would affect 0.0015% of Oregon farmland. So what is the bill for? Is it to get developers' feet in the door to even further degrade land protections?

Why do we always have to prioritize growth - more people, more buildings, more pavement, more traffic, more trash, more noise, more light and water pollution - over quality of life for every body who already lives here?
