SJR203

I am requesting an unanimous vote in support of this amendment. Oregonians should have their voices heard on this matter of public safety, and accountability for those who violate the law and our rights. In Oregon and across the country, masked and unidentified federal agents are violently terrorizing communities with impunity. This is not immigration enforcement. It is certainly not democracy. Rather, this is the kind of lawless paramilitary secret policing we see in authoritarian regimes. It is heartbreaking and should shock our conscience.

Oregonians should be able to hold all law enforcement operating in this state to the high standards of Oregon law enforcement. I urge your support for SJR 203.

Thank you for your consideration.
