Measure, Appointment or HB4105  
Topic:

Co-chairs Helm and Owens, Vice-chair McDonald, and members of the committee, Please oppose HB4105. This bill would bypass the many values of our forests in favor of short term profits for timber harvests. Walking through our forests its easy to see the vast reduction in health and biodiversity in forests that are managed for short timber cycle rotations. Our forests are so much more valuable than that. The bill would also open the state to more lawsuits over timber production levels. Please vote no on HB4105
