Measure, Appointment or HB4105  
Topic:

Dear legislatures. You have been voted in as a representative of the people who live within Oregon. I oppose any laws or measures that will not protect habitat, and safe drinking water for the half-million Oregonians who rely on state forest watersheds. People within the state have worked too hard to develop quality salmon restoration efforts, ecosystem, revitalization, and wildlife corridors, all well keeping in mind the necessity for safe drinking water for all -people and animals.
