Committee:

House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or
Topic: HB4105

What remains of Oregon's "so far" not "overly-messed-with" forests provide a lucrative habitat boasting of clean flowing rivers for salmon in a land kept available as habitat for lots of different kinds of wildlife--which in turn provide a lure to and a profit from a healthy recreation area. Why mess with what's already economically wise and ALSO ecologically sound??
