

Submitter: Sarah Carolus

On Behalf Of:

Committee: House Committee On Emergency Management and Veterans

Measure, Appointment or HB4100
Topic:

I support HB4100 with the amendments that have been proposed by Representative Isadore and I support the position of the Risk Bond Coalition. An accident or natural disaster will cause significant fossil fuel spillage; this is a given fact. The Critical Energy Infrastructure (CEI) where 90% of Oregon's fuel is stored is build on UNSTABLE SOIL. Risk Bonds are an important financial assurance that money will be available to pay for possible damages when a disaster occurs. Thank you.
