SB1530

I support the SB 1530 as it will meet the need to protect public officials in a period of time where hate is being touted over the most unreasonable issues. And where there are groups of people using violence as a means to get their way. We need our public officials to feel protected or no one will want to run for office. In a day where the judicial system is not wanting to arrest criminals, but protect them over the citizenry, we must draw a line.

Thank you for supporting this Bill
