HB4018

Money is not a form of free speech when it is used to subvert democracy! It is an extremely powerful tool of the wealthy to game government oversight in their favor. We now have ample evidence that the extreme amounts of money that are privately used to finance elections and push legislation is distorting democracy so much that government is no longer fair.

We now have politics in the US that has created a government for the rich where politicians are bought and paid for to accomplish the goals of the wealthy and leave the rest of the population to fend for themselves. This is egregious misinterpretation of what the Constitutions of states and the Nation!
