

Submitter: Virginia Purvis  
On Behalf Of:  
Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water  
Measure, Appointment or HB4105  
Topic:

The timber industry is only one among many stakeholders and its rights and responsibilities must fit in the mix of all involved. And many of the stakeholders are directly harmed by putting increased revenue from timber above the maintenance of healthy water supplies, effective erosion prevention, able-bodied interactions among animals and between animals and plantlife, robust climate resiliency dependent on the interactions of water and land and carbon-intake.

Thank you for considering my arguments. Good health in your committee debate!
