

Submitter: Kimberly Harmon

On Behalf Of:

Committee: House Committee On Health Care

Measure, Appointment or Topic: HB4074

As a nurse from Missouri, this bill is against every reason why I left serving my home state to come here and serve the population. Oregon is currently one of the most appealing states for nurses and other healthcare professionals alike. We feel represented and safer here in comparison to other states. This bill would set us back in safe staffing ratios, which is supported by many sources to better the population's health as well as the well-being of nurses and other health professionals. Patients over profit!
