

Submitter: Alicia Polacok

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1587

Justice Advocates, a grassroots group in the Portland area that promotes criminal justice reform, supports SB 1587 because every Oregonian's data needs to be protected.

Data brokers should not sell or otherwise provide brokered personal data to any person or entity. If they provide such data about an individual in violation of this legislation, the individual would be able to bring a civil action against the data broker for economic and non-economic damages.

Guidelines on how our information is used, who is using it and the scope of information allowed are needed. SB 1587 is designed to stop the buying and selling of our private data and the Senate Judiciary Committee should vote yes.
