

Submitter: Linnea Hart

On Behalf Of:

Committee: House Committee On Transportation

Measure, Appointment or Topic: HB4085

This is NOT approved by Portlanders where we value humans filling jobs, safety for our community, and regulations so that we can control and have a say in what goes on in our OWN city. OPPOSE this and respect our autonomy. We don't want robots cruising around our streets taking jobs from our struggling community without any regulation.
