House Committee On Health Care

Measure, Appointment or Topic:

HB4074

This bill will harm Oregonians. I've worked in medical health administration for over a decade and can confidently say that this is a money ploy for the wealthy and will reduce interest in nursing as a profession. We are at a precipice as a society- are we going to cave to special interests, corporations, and the wealthy OR stand up for the people that elected you? All of us could end up in the hospital, at any point. Do you want understaffed medical wards? Lower support when you're recovering from surgery?
