Measure, Appointment or Topic: HB4106

I strongly oppose the idea that law enforcement be granted any protection from their actions. As citizens we are expected to be calm and collected when interacting with police and other law enforcement organizations no matter what the situation is. If not, we the public, are arrested pending charges, while police and law officials (who are trained in deescalation crowd control tactics) are more often than not aggressive at the slightest hint of conflict. That is not a reasonable standard to hold citizens or the law. We must oppose bill loudly and without hesitation. Laws are supposed to protect us all not just a chosen group.
