Measure, Appointment or
Topic: SB1599

The referendum petition specifically calls for a November vote and this measure is obviously meant to take advantage of the lower turnout historically seen in May primary elections. It also makes it nearly impossible to gather the necessary signatures to place arguments in favor of repealing the transportation taxes and fees. This measure is nothing but a political dirty trick by the majority party. Shame on you! You were elected to represent your constituents and should respectfully acknowledge the unpopularity of your transportation taxes and fees and let the voters decide whether they should stand or not.
