I was able to testify in person on February 9th at the Capitol that I oppose of this to be in the May primary election but have it on the ballot for November general election. Here I am again, with a written testimony still opposing of this being on the May election. Elected officials know who you serve - Oregonians. Many have testified in person opposing of this. The only in-person testimonies that were for it were ODOT commissioners and elected officials, go figure. And if legislature choose to ignore the will of the people, come November we will not forget. The people are bleeding left and right trying to make ends meet, and majority of you elected officials want to burden us even more with such tax increase. I will await the decisions made for this and I will mark it on my calendar who not to vote for coming general elections in November.
