As a concerned Oregon resident, I am very disappointed that the current legislature is going against the will of the people. A petition was signed by a significant number of voters which was legally enough power to get the gas tax referendum put on the November ballot to be voted on by the citizens. In an attempt to push for a quick switch to change the voting to the May election which is usually a lower turn out election and most likely will not reflect the will of the petition signers who were in belief that the November election would be when the citizens would have an opportunity to let their opinions be known. Quite trying to deceive the Oregon voters.
