Senate Committee On Judiciary

Measure, Appointment or Topic:

SJR203

I am in complete support of requiring ICE agents to wear identifying badges, to be unmasked, and also to be required to act in a lawful manner, as all our other law enforcement agents comport themselves. When working with immigrant communities and with peaceful demonstrators, ICE agents should be trained to treat each person with respect, to refrain from all unnecessary violence and brutality. And, furthermore, as with all law enforcement agencies in our country, to be held accountable for their actions.

It's not okay for them to murder peaceful citizens, to imprison people who are not breaking any criminal if immigration laws, and to be treated as hero's for doing these things!

I realize this goes beyond the scope of the proposed law, but I'm putting it all out there as food for thought. Wearing badges and not hiding behind masks will be a good start. Thank you for reading this.
