Resources, and Water

Measure, Appointment or Topic: HB4105

I strongly oppose this bill. It would be detrimental to environmental conservation efforts and would cause irreparable damage to our natural resources. We need to find alternatives to the destructive forest management practices and clear cutting our state forests and watersheds. Putting taxpayers on the hook to pay for lost logging revenue is absurd and should not be part of our resource management plan.

I urge you to oppose this bill and prioritize clean water, wildlife habitat and our forests- the legacy of our beautiful state- for years to come.

Thank you.
