

Submitter: Amy Bright

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB4105

I highly oppose House bill 4105. Our National forest protections are enshrined in law and this desecration of our last remaining old growth timber and ALL of the animals that live within these ecosystems are being impacted. Soon there will be nothing left which means our water our food our air will all be impacted. This is the most obtuse short sided decision to go after our public lands. When all you're doing is selling the timber for profit with no oversight just raping the land. Our lumber and timber industry has never done a good job protecting the ecosystems of the forest. They just go in and slash it all down.

It's an abomination
