Measure, Appointment or Topic: SB1598

My name is Dr. Jessica LeBlanc and I am a physician who is worried about vaccine affordability and access in Oregon. I support SB1598 to ensure that Oregon families do not have additional cost or logistical barriers to obtaining preventative vaccines. This bill champions patient choice, by ensuring those who want immunizations are able to do so without having to worry about payment or making a hard to come by appointment with their primary care physician or pediatrician to undergo mandatory shared decision making.
