

Submitter: Robert Kugler  
On Behalf Of: MCAT  
Committee: House Committee On Transportation  
Measure, Appointment or Topic: HB4126

Dear Members of the Committee,

Please support HB 4126. We must get the start on building the administrative infrastructure necessary to implement a road user charge system of transportation funding in the state of Oregon. This is the basis for an appropriate "beneficiary pays" system of supporting transportation funding in Oregon. While I think an eventual RUC must be designed to be progressive in nature, for the moment this is a place to start.

Thank you for your work on this.

Rob Kugler
