Measure, Appointment or Topic: SB1598

The government over-reach is out of hand.  
Leave us alone and stop dipping your hands into where they do not belong.  
We the People have the right to make our own decisions about what "health" services we want, and when we want them...and the insurance companies are not to be making those decisions for us.  
Confidentiality between us & our doctor(s) is just that = confidential, and must stay that way unless we give permission for some other entity to be privy to the information.

We are sovereign beings and God is our authority, not the government.
