

To our Representatives and Senators,

I write this with deep sorrow because I see our State choosing not to listen to the voice of the people over the voice of a leader. This is considered to be a democratic state which means we the people have the right to vote and have shown you that we want to bring this Bill SB1599 to vote in November not force it to be a May vote. To push this SB 1599 to May's election is unconstitutional which is telling those who voted for you that you are not willing to listen to the people.

I ask you to vote no on placing SB 1599 on the ballet in May.

Thank You,

Carol Alery
