Measure, Appointment or HB4153
Topic:

We do not need more regulations on smalls farms and we do not need big farms dropping big stores on farmland. This bill is ridiculous and reeks of corporate greed, forcing out small farm owners and allowing the big ones to disrupt their business. Small farms should be allowed small, self service farm stores and produce stands with no restrictions. It's meant to supplement their income and has been an integral part of American farmlife for a very long time. I'm appalled that this idea even made it this far.
