Committee: House Committee On Health Care

Measure, Appointment or Topic: HB4155

I'm a mother because of IVF. As a lifelong educator I couldn't afford fertility treatment and it wasn't covered by my insurance. Thankfully my husband's corporate job offered fertility coverage, allowing us to start a family. But other teachers like me aren't so lucky.

Please mandate fertility coverage for all. Teachers are a good start— we barely make enough to live in the major cities where we teach, and definitely can't afford this kind of care.
