

Submitter:

Taj Morgan

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

I do not support health benefit plans to be required to include vaccinations, or any public health officer / organization recommended medical treatments. Such recommendations are too wide sweeping and are not what may be best for the individual patient. Also, local public health officers / organizations have fully discredited themselves as reliable and accurate sources of scientific information. Requiring health benefit plans to provide coverage creates incentive for unnecessary and potentially harmful practices recommended by public health officers to be implemented. Thank you!
