Resources, and Water

Measure, Appointment or Topic: HB4105

I am in favor of this bill. It will help to restart the purpose of the state owning forest lands. Our state needs the common sense management and harvest of our valuable forests. Compared to private forests, our state forests are left to be bug-infested, disease-ridden and ready for devastating fires.

Our forests properly managed would help to return this valuable resource to the beautiful resource for the people of Oregon.

Thank you to the authors and sponsors of this bill.
