

Submitter:

David Weidman

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

My name is David Weidman, and I support vaccine access.

I support the passage of senate bill 1598 because I believe in science and the long-established science of vaccine efficacy v disease harm. As a community we must support others to be vaccinated so we can gather with our children without worrying about the measles or other communicable diseases

Please pass Senate Bill 1598.
