Measure, Appointment or HB4105  
Topic:

Hello Co-Chairs Helm and Owens, Vice Chair McDonald, and Members of the Committee,

As a lifelong Oregonian, I oppose House Bill 4105 and propose you do the same.

Here's why:

- This bill prioritizes logging over all other forest values on state forests. It undermines the state forest Habitat Conservation Plan already in place! It would lead to more clearcuts, more industry lawsuits, less habitat for fish and wildlife, and less carbon storage on state public forests.
- The Department of Forestry already has processes in place to establish timber harvest goals and regularly meets or exceeds those goals, often at the expense of water quality, imperiled species, and carbon storage.
- The bill is expensive. It would require costly rulemaking and lead to non-stop litigation the state would have to defend against at taxpayer expense. The bill creates a new, special right for the timber industry to sue the Department of Forestry to force more logging on state forests. The state can't afford unneeded legislation with an enormous fiscal impact.
- The bill is unnecessary.

I urge you to oppose this bill. Instead, I encourage this committee to focus on measures that would increase carbon storage on our state forests and safeguard public state forests and waterways for current and future generations.

Please don't let this bill pass out of committee.

Sincerely,  
Michelle F Mitchell
