Measure, Appointment or Topic: HB4105

Please support this bill. To further hamper sound and responsible management of our public forests is an absolute crime. If you vote against this you are being irresponsible and you support the continued destruction of the timber industry & the importing of subsidized foreign lumber.

Sound timber management is necessary to have healthy forests. To allow frivolous and time consuming law suits against every public timber sale is the epitome of stupidity. Do the right thing and vote for this bill. Stop listening to groups who know nothing about Oregon and its natural resources, force their opinion on you! Please listen to your constituents and support this!

Sincerely,
Melinda Montgomery
