Measure, Appointment or Topic: SB1598

My name is Mimi Luther and I am writing today as a member of the public, not as an employee of the Oregon Health Authority.

Access to clinical immunization services is essential to a healthy Oregon. Vaccines prevent serious illness, reduce hospitalizations, protect vulnerable populations, and save health care dollars.

As a mom and grandma, I can say that anything that can be done to make these foundational services is undeniably the right thing to do. People of all communities need this process to be easy. I fully support the basic improvements covered in this bill and urge your yes vote.

With appreciation,

LM Luther
