

Submitter: Rima Wilson

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB1566

Prevailing wages present a significant obstacle to the development of affordable housing. We strongly support this bill for the fact that it exempts off site infrastructure from triggering prevailing wages on entire projects, as the current rules threaten our ability build larger multi-phase projects with high infrastructure costs. Please support this bill to advance the development of much needed affordable housing in Oregon.
