

Submitter:

Amanda Melville

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

My name is Amanda Melville, and I support vaccine access.

We need preventative health care, especially vaccine access, more than ever to create a safe future for our children to grow and thrive. The evidence is clear and we ought to review history to remind ourselves of why vaccines exist. Vaccines prevent diseases that could have an enormous impact on the wellbeing of our communities. Without health and wellness, we cannot live well, attend school, go to work, or be contributing members of society.

Please pass Senate Bill 1598.
