

Submitter: Zoe Sanderson  
On Behalf Of:  
Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water  
Measure, Appointment or HB4105  
Topic:

Dear Co-Chairs Helm and Owens, Vice Chair McDonald, and Members of the Committee,

As a future physician with the goal of preserving public health, I oppose House Bill 4105. This timber industry bill prioritizes logging over all other forest values on state forests. It undermines the state forest Habitat Conservation Plan and would lead to more clearcuts, more industry lawsuits, less habitat for fish and wildlife, and less carbon storage on state public forests. A healthy environment means a healthy community for both humans and wildlife.

The bill is expensive. It would require costly rulemaking and lead to non-stop litigation the state would have to defend against at taxpayer expense. The bill creates a new, special right for the timber industry to sue the Department of Forestry to force more logging on state forests. The state can't afford unneeded legislation with an enormous fiscal impact. We can save money and use it for more productive public health initiatives.

I urge you to oppose this bill. Instead, I encourage this committee to focus on measures that would increase carbon storage on our state forests and safeguard public state forests and waterways for current and future generations. I want to live in a world where I feel hopeful enough for the future to have children.

Please don't let this bill pass out of committee.

Sincerely,  
Zoe Sanderson
