

Submitter:

Gabriela Oh

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

My name is Gabriela Oh and I am worried about vaccine affordability and access in Oregon. I support SB1598 to ensure that Oregon families do not face additional cost or logistical barriers in obtaining preventative vaccines. This bill upholds patient choice.

SB1598:

Ensures continuity of coverage and preserves coverage for widely supported, evidence-based preventive services. It supports patient choice. It allows Oregon to act nimbly gives the state tools to respond quickly when federal guidance changes and access is at risk. It respects medical judgment, so providers may continue to practice according to evidence-based recommendations and their clinical expertise. And it keeps decisions between patients and providers. SB 1598 reinforces science-based care while maintaining flexibility and trust in the clinician-patient relationship.

Thank you,
Gabriela Oh
