Open Letter to the House and Senate Members of Oregon:

Ladies and Gentlemen, this is a two-part question you need to answer do you believe in the Constitution of the United States and do you support it? If your answer is YES, then you MUST put your signature in support of this bill: off with the masks, judicial warrants only, proper ID with a badge, one uniform for all agents, and stop the profiling of individuals like me who have darker skin because I am of Hispanic descent. In 1967, I took a solemn oath to protect the Constitution and did that in an Army uniform 23 years while the so-called President of our country was a draft dodger. Bone spurs my ass. My generation lost over half a million REAL Americans while this person played tennis, golf, and other sports. Do not let this tyrant spit on the blood of so many good men and women who gave their ALL. Be on the right side of history and support this bill.
