Measure, Appointment or Topic: HB4105

It has come to my attention that industry groups supporting this bill are sending misleading emails to Oregon legislature constituents to encourage them to support this bill. This is duplicitous, and will likely result in many environmentalists being hoodwinked into writing testimony supporting this bill. We must prioritize the “lungs of our earth”, and your constituents agree: moratorium on old growth harvest, increased regulation of private timber barons, and increased preservation of our natural spaces and wildlands.
