Measure, Appointment or SB1599
Topic:

Special Committee for SB 1599: I am strongly opposed to this SB1599. I am a legal, Oregon born full time resident, I believe in fair play, I do not believe that a committee of people that first passed the multi billion transportation package should be able or allowed to change the rules or requests of 250,000 voters that signed petitions that clearly stated the November election was when this would be voted on. The petition was accepted and totally legal. Now some people are changing what we the voters have asked for. Not only is the May primary wrong it also deletes full voting privileges to every legal voter in Oregon. Not everyone gets to vote in May unless they are Demo or Repub. That alone is discriminating.

You are making every effort to remove any right to vote that we the residents have, or to honor any vote we make. Am I to wonder what else you will remove or hide from us? Start taking care of the people you represent instead of worrying about how the party says you should vote. You have live people that are struggling to make ends meet, taxes increasing by leaps and bounds every time you turn around, food, housing, healthcare, etc. Many of decisions you make are crushing the people.
