

Submitter: Rachael O Postman
On Behalf Of:
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1598

My name is Rachael O Postman, and I support vaccine access.

As a primary care provider, you would not believe the absolute chaos that changes in vaccine policy caused in primary care clinics last fall. We had to spend hours of staff time to try to clean up that mess. If you've tried access primary care recently, you'll know that our overburdened primary care system is under so much stress. When changes happen that negatively impact primary care offices, that results in delays in all kinds of patient care which causes poor health outcomes. SB1598 will stabilize vaccine policy to help prevent that kind of chaos from happening again.

Please pass Senate Bill 1598.
