

My name is Dr. Angeles Pena and I am a pediatrician who is worried about vaccine affordability and access in Oregon. I support SB1598 to ensure that Oregon families do not have additional cost or logistical barriers to obtaining vaccines. This bill champions patient choice, by ensuring those who want immunizations are able to do so without having to worry about payment, cost or making a hard to come by appointment with their primary care pediatrician or other medical provider to undergo mandatory shared decision making.

Thank you,  
Angeles Pena MD MPH
