

Members of the Senate Committee on Judiciary,

Please support 1587. At this moment when democracy is facing severe challenges, when federal agents are overreaching their Constitutional and lawful limits, and when personal data is being misused by a host of powerful entities, including DHS personnel, it is incumbent on all of us to do what we can do to stop these abuses of power.

SB 1587's additional provisions to allow for legal recourse and civil penalties are essential for the protection of individuals and for ensuring that government law enforcement agencies abide by the law.

Please vote for SB 1587.

Sincerely,

Roscoe Caron
Eugene
