Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4001

It is well with the scope of our state rights to clarify the ways in which we can mitigate federal overreach, especially when federal agents are operating in opposition to their own training, guidelines and rules.

It is not a waste of tax dollars to ensure our public officials, government workers and state law enforcement have clear guidelines for curbing abuses and right violations of Oregonians at the hands of federal agents.

It is a waste of our tax dollars for us to use state resources to support federal actions that are already funded and supported by our federal tax dollars. It is not the state of Oregon's, or the purpose of Oregon state taxes job to prop up the effectiveness of federal agencies.
