

Members of the Senate Committee on Judiciary,

Please support SJR 203, the “No Secret Police” bill.

At this moment of great peril for democracy, it is essential that we defend the Constitution and our civil rights in all legal ways possible. Enshrining protection of our civil liberties in our state constitution is right and just.

Our civil liberties are contingent on a society that does not live in fear of government law enforcement agents abusing their power. Requiring law agents to be visible and identifiable is right and just. Accountability by those who have power is right and just.

Please support SJR 203.

Sincerely,  
Roscoe Caron  
Eugene
