Nicolle Black

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

Sending support of this bill SB1598 to remove access barriers and stop confusion around vaccines. We know from decades of research that vaccines are safe and effective.

As we are currently seeing a huge surge of the highly contagious Measles, stemming from unvaccinated people in South Carolina. We need to be standing our ground here in Oregon to keep Vaccines easily available to encourage uptake to keep our population less sick as this helps our economy, schools and hospitals work better.

Being someone who is immune compromised means that these Vaccines are incredibly helpful to keep me out of the hospital and minimize sickness in our home. Thankyou for your time.
