

Submitter:

Kyle Meyer

On Behalf Of:

Committee:

House Committee On Economic Development, Small  
Business, and Trade

Measure, Appointment or  
Topic: HB4086

As an Oregonian resident of 10 years, and an active registered voter, I implore you to carefully consider uses of our land and resources that don't contribute to the rampant pursuit of money at all costs. Big business and the booming energy demands of tech companies are draining the countries money and power. Don't make Oregon a haven for these interests. Your constituents are watching with hope you make the right decisions.
