

Submitter: Wade Larsen

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1598

Sending support of this bill SB1598 to remove access barriers and stop confusion around vaccines. We know from decades of research that vaccines are safe and effective.

As we are currently seeing a huge surge of the highly contagious Measles and other preventable diseases, stemming from reduced vaccination rates in many States. We need to be standing our ground here in Oregon to keep Vaccines easily available to encourage uptake to keep our population less sick for our economy and well being of our citizens. This has proven to be the best line of defense against unnecessary outbreaks.
