

Submitter: Ray Ochoa  
On Behalf Of:  
Committee: House Committee On Health Care  
Measure, Appointment or Topic: HB4155

As an Oregon resident who cares deeply about those struggling to build their family in our state, I strongly urge you to support HB 4155, which will help Oregonians build their families.

Infertility is a recognized disease, affecting 1 in 6 people globally. The American Medical Association and the American College of Obstetricians and Gynecologists recognize infertility as a medical condition that deserves insurance coverage—just like any other health conditions.

Unfortunately, too many Oregonians face insurmountable financial barriers to accessing the medical care they need to build a family. Without insurance coverage, infertility treatments are often out of reach.

It is past time for action on this issue in Oregon. Please support HB 4155.
