BlueGreen Alliance (BGA) is an alliance that works with labor and environmental organizations aimed to address our environmental challenges while creating good quality jobs. BGA is guided by the principle that we can no longer choose between good jobs and a clean and safe environment—that the actions we take to create quality jobs and to protect working people and the environment must go together as we will build a clean, thriving, and fair economy.

BlueGreen Alliance testifies in support of HB 4032 as this bill supports:

- Builds on the important work of SB1567, the Fuel Tank Seismic Stability Program.
- Builds on the important work of the The 2024 Energy Security Plan
- Explores Diversification as an important strategy for energy resilience and security

We support the legislations overdue considerations to address the challenges of the CEI hub.

Respectfully,

Ranfis Giannettino Villatoro
