

Submitter: Crystal Kendell

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1516

I just wanted to speak to how I do not want mass surveillance and Flock-type technology in Oregon. My feeling is that mass surveillance of any sort is a violation of our rights to privacy and any overstep cannot be justified. Flock style surveillance in particular only enhances all that is wrong in law enforcement already and does nothing to make people safer. It in fact makes our data and lives less safe when these companies get breached. Also, there are other, better even, ways to prevent crime (that would be an entirely different discussion) than mass surveillance. It should all be banned. Thank you.
